

# Foster Refrigerator

Professional Foodservice Refrigeration

02

Demand more. Choose Foster

# The name to trust in commercial refrigeration.

Foster has been the leading manufacturer and innovator of professional refrigeration products for over half a century.

Whatever your requirement, Foster can help. We will work with you to find the right solutions to meet your needs and the objectives of your business. Whether you are an end-user or a specialist refrigeration dealer, catering supplier, kitchen consultant or a contractor, expert Foster teams are on hand to guide you.

What's more, you have the security of knowing that Foster Refrigerator is part of the ITW group of companies, a leading Fortune 150 business manufacturing a diverse range of industrial products and equipment.

# FOSTER

“Fosters’ philosophy is simple - we deliver MORE in everything we do.”

## It's all about the food

**Yes, we make the world's finest refrigerators, but your food is what matters most to you.**

As a professional in the food service industry, your kitchen is the heart of your business. You prepare, you cook and you serve; that's your business. You need your fine ingredients stored to perfection and ready to use. That is all that counts.

Everything we do is dedicated to producing world-class products that will keep your food fresher for longer. We create the products that provide the optimal storage environment. Products that help your business to deliver the highest possible quality food, the highest standards of hygiene and safety and the highest levels of environmental awareness.

Our refrigerators are guaranteed to maintain perfect temperature control and store your quality ingredients in outstanding and hygienically safe conditions. So, the condition, taste, texture, colour and smell of your food will be maintained.

World-class refrigeration can also aid the efficiency of your business. Like any profitable organisation, your kitchen needs to deliver excellence.

# Demand more. Choose Foster

We understand the needs of professionals in the catering business. You demand excellence, so we commit to delivering excellence – time and time again.

## >More Professional

*A professional business needs professional products*

Foster has built an enviable reputation for manufacturing refrigeration products for the foodservice professional. With Foster, you can expect total quality and total satisfaction from every product.

Our enthusiastic, passionate and dedicated people are at the heart of our business. Our sales staff are hand picked and trained to deliver expert advice on all aspects of buying and owning commercial refrigeration products.

At Foster, we don't just want to be a supplier, we want you to consider us your partner. Your business matters to us, so trust us to help you deliver high-quality food and service to your customers.

## >More Value

*Demand the best products at the best prices, with the lowest possible costs*

Foster products are designed to offer more capacity than competitor products, so you get more storage space for your money. Our products are cheaper to run, utilising high-tech, ingenious design and engineering that incorporates clever, energy saving features. All designed to save you money.

## >More Reliability

*A catering business needs to know that its equipment won't let it down*

Price and ingenious design are nothing without reliability. We design our products around the needs of professional caterers, listening to requirements and creating the best solutions. Every cabinet is 100 % fully tested before it leaves the facility for total functionality, safety and performance, meaning that you can be sure that your Foster equipment will serve you, day in, day out.

## >More Innovation

*No business can stand still. Not yours, not ours. The world is a fast moving place, and people constantly expect more. We deliver more*

In a fast moving world, innovation is the lifeblood of Foster's business. We are justifiably proud of our award winning British design and manufacturing and we have a programme of constant investment in our facilities, our manufacturing processes and our people, to ensure that Foster sets the standards by which all other manufacturers are judged. Trust our expert teams to make the best even better and to deliver more quality, efficiency and savings to your business.

**" Our philosophy is to innovate in everything that we do. It is crucial for us to understand the needs of our customers and to constantly respond to those needs"**

# More Responsible

## At Foster we are committed to considering the environment in everything we do.

From our suppliers and our factory to our production processes and products, we are committed to operating our business in a sustainable way for the benefit of future generations. We make long lasting and recyclable products that are economical to own and operate.

Foster has led the way in our sector for our outstanding policies and operational ethos towards Corporate Social Responsibility. Everything that we do is driven by our focus on operating in a socially and environmentally responsible way, and our ground-breaking CSR report sets the standard by which other refrigeration manufacturers continue to be judged.

Foster has always pioneered new technology such as hydrocarbon refrigerants and we were the first to be awarded the environmental management standard ISO 14001 in the industry. Foster is committed to trading ethically and the business is verified by the Carbon Trust standard. Furthermore, Foster is the only company listed on the Carbon Trust Energy Technology List to have products independently tested.

For more information please request a copy of our latest CSR report.

### Climate Change

Foster is a nationally recognised low carbon manufacturer. The only one in our industry to be awarded the Carbon Trust Standard which not only highlights our environmental achievements but also our future commitment to further reducing our carbon footprint. Our products also deliver some of the lowest carbon emissions in commercial refrigeration.

### Sustainability

We aim to adhere to a constant programme of reducing waste and recycling ever increasing quantities of waste material. In fact, 98% of Foster products are able to be recycled and our recycled raw materials are used in items as diverse as horticultural products, plastic plates and glass fibre.

### Social Responsibility

We support our local community and source as much as we can from local suppliers. Currently, Foster sources 85% of our materials and services from within the UK, and of that 51% from within a 35 mile radius of our UK manufacturing plant.

### EcoPro G2 Range

The EcoPro G2 range has set new standards in low carbon refrigeration. The popular G 700 H refrigerator uses less energy than a traditional lightbulb.

### Corporate Social Responsibility (CSR) Report

The full story of Foster's sustainable achievements can be found in the new CSR Report. You can obtain a copy of our CSR Report by e-mailing [marketing@foster-uk.com](mailto:marketing@foster-uk.com)

# CSR

## Working Today, Protecting Tomorrow

# We've revolutionised professional refrigeration...again.

## With the launch of the stunning EcoPro G2 range, the best just got better.

At Foster we understand that reputation is everything. We know that the success of your business is built on the foundation of hard work and customer satisfaction. Reputation and profitability are hard-won, and professional caterers cannot compromise on quality, efficiency and service – it is the lifeblood of your business.

A refrigerator is more than just a necessary food storage solution; it can dictate food quality, the longevity of your quality ingredients, it can enhance efficiency in your kitchen and ultimately, profitability. The EcoPro G2 has been designed specifically with these things in mind.

“Our goal is to help your business thrive – don't just buy a refrigerator, let your purchase become a tangible benefit to your business ”

### A Generation of Innovation

#### EcoPro G2 | Expertise

- > Highly-qualified, experienced and above all, passionate designers
- > Dedicated to the pursuit of excellence
- > Challenge convention and innovate
- > Compromise is not an option
- > British design and manufacturing at its best

#### EcoPro G2 | Facilities

- > Multi-million pound investment in our British manufacturing facility
- > New world-class production line, state-of-the-art foaming jigs and a fibre optic laser - utilising the most innovative technologies and processes available
- > Highly-efficient product availability and end-of-line customisation

# EcoPro G2

The next generation of professional refrigeration has arrived

## The EcoPro G2

Built from the ground up to include over 50 new innovations, the EcoPro G2 is loaded with new design, quality, reliability, efficiency and performance features:

- > All new thicker and more robust cabinet design with advanced thermal efficiency and market leading capacity making your money go further
- > New 'smartphone style' touch sensitive hidden-until-lit control panel with unique high visibility temperature display combines sophistication with functionality
- > All-new ergonomic door and handle design for ease of opening and cleaning
- > Designed using high technology: 'Fluid Food-Fresh Dynamics' modelling, the new and improved advanced Foster Circular II air distribution system maximises efficient operation even when shelves are fully loaded
- > Brand-new refrigeration system designed to be the most technologically advanced and energy efficient yet
- > New 'Airlines' ventilation system cools the compressor which reduces running time by 15%
- > Revolutionary racking set-up means added stability with less componentry
- > Sleek new modern aesthetic combines form and function to give you a great looking, easy to use, efficient product
- > New and improved 'Fuzzy Logic II' intelligent controller with 'e' mode drives reduced energy consumption
- > Innovative new thermal break and hot gas door heater deliver improved efficiency and a combined reduction in temperature loss and condensation
- > Completely re-engineered inner recessed door interface provides mechanical barrier to protect gasket face from the cold air of the interior
- > **And much, much more...**

EP 700H  
Refrigerated Cabinet

A range of products designed to meet the needs of the most demanding environments and expectations

## Performance, Quality & Reliability

You know the importance of excellence. You are judged on the quality of your food and service.

Customer satisfaction is everything, and we can help you deliver that to the best possible standard. A fridge shouldn't just store chilled food – it should preserve every last ounce of food quality, after all it is fresh and tasty ingredients that create incredible food. Ensure your food gets the best treatment with the Foster EcoPro G2.

### Key performance, quality and reliability features:

> Designed using high-technology 'Fluid Food-Fresh Dynamics' modelled airflow for improved distribution of air. This significant new advance in research and development has resulted in scientifically optimised temperature control with all the benefits to your business of increased energy savings.

- > New easily adaptable racking system has easy to fit tray slides to allow for easy positioning and features the ultimate anti-tilt system for robustness. Capable of taking 40kgs, each shelf is fully secured into the rear air duct
- > Rigorous manufacturing regime ensures outstanding build quality and product longevity

- > Cyclopentane foam that maintains thermal efficiency longer than other insulation
- > Reinforced 5mm stainless hinges at the top and bottom of the door for added durability and to eliminate the risk of door sag (tested to 250,000 openings, equivalent to ten years' usage)
- > Cataphoresis coated coils prevent corrosion and prolong refrigeration system life
- > Works efficiently even in hot kitchens, operates to ISO Climate Class 5 - up to 43°C ambient

#### Quick fact:

> New cutting edge technology fibre optic laser provides more hygienic and precise joins for enhanced product quality and performance, whilst virtually eliminating wastage

**“Why compromise?  
Choose the EcoPro G2”**

## Design & Aesthetics

As well as supreme functionality, aesthetic appeal is an important consideration for any business. The EcoPro G2 has been designed with sleek, clean and minimalist styling that will help to create a modern, refined and sophisticated look in your kitchen or premises.

Whether you operate a commercial kitchen or require a unit to sit front of house, the design of the new EcoPro G2 will enhance, compliment and integrate into any environment.

**“Designed with form  
and function to deliver  
the perfect combination”**

### Key Design Features:

> The new door design has been created with an intuitive and easy to open door handle. This design element aids easy access to the refrigerator whilst providing a tactile high-quality user interface

> A newly designed top fascia panel featuring the 'Airlines' ventilation system for the refrigeration unit, means that your state-of-the-art product looks great in any environment whilst keeping the system cool and efficient

- > New high technology minimalistic controller system
  - 'Smartphone style' touch sensitive hidden-untillit control panel keeps the screen flat and free of visual clutter, combining sophistication with functionality
  - New and improved 'Fuzzy Logic II' intelligent controller with 'e' mode drives reduced energy consumption
  - Enlarged high visibility bright white PMVA (Passive Matrix Vertical Alignment) temperature display is both functional and easy to read (comfortably visible from 10 metres away)
  - Low voltage control panel for safety
  - Controller uses switch mode power supply which is far more energy efficient than a transformer with advance compliance to the One Watt Directive
  - Proven technology tested for over 5 years
- > Intelligent design with no visible working components in the storage area - meaning all space can be fully utilised

We have put hygiene and ease of cleaning at the forefront of the EcoPro G2 design philosophy

## Hygiene & safety

### Built to meet all design safety standards

No kitchen can compromise on hygiene. A clean kitchen is the primary basis for any food preparation facility or catering business. Products that are hygienically designed and easy to clean are a real benefit in any kitchen, providing peace-of-mind and saving time without cutting corners.

The new range has been manufactured using the latest laser-cutting technology to deliver the best possible precision of stainless steel joints and the elimination of rough edges.

The EcoPro G2 features high quality stainless steel, dished interior bases, easy-roll castors and one wipe, smooth profile door handles. Removable racking and a range of easy-to-clean materials and design features result in a product that is effortless to keep hygienic.

#### Key hygiene and safety features:

- > Easy-to-clean, hygienic and maintenance-free magnetic fan cut-out door switch with no moving parts
- > Stainless steel dished liner base for a high quality, hygienic and easy to clean finish
- > The EcoPro G2 features four/five lockable castors as standard, giving you full mobility for easy access around the unit. Once in position, you can be sure it will stay there!
- > Self closing doors help to retain consistent storage temperature

#### Quick fact:

- > The touch sensitive control panel screen is free of buttons to allow for easy cleaning

#### Quick fact:

- > Easy access hinged fascia for maintenance and routine condenser cleaning

#### Quick fact:

- > Ergonomically designed, easy to clean door handle with no visible fixings, seams or sharp edges

EP 1440H Refrigerated Cabinet

### Value for money

We understand that in challenging economic times, every penny counts. Businesses can only survive through prudent management and well-considered expenditure.

When the cost-saving, energy-efficient qualities of Foster products are factored into a purchase decision, it is impossible to argue with the whole-life cost proposition of a Foster refrigerator or freezer.

Foster cabinets and counters are on the UK Government's Carbon Trust Energy Technology List, meaning you can save 8.6% on your capital cost in the first year. They have been independently tested and meet their standards on energy efficiency.

- > Market leading capacity for best value with up to 30 litres of additional space compared to competitor products - that's equivalent to 100 x 250g packs of butter!
- > Highly robust construction means industry leading longevity, low maintenance and servicing costs
- > Internal storage space is maximised to ensure that customers get 'more fridge for their money'
- > Millions of pounds worth of investment in our class leading facilities have improved quality and created manufacturing efficiencies that we can pass on to you

#### Routine maintenance

- > Low voltage control panel for safety
- > Controller features simple manual defrost control and hidden-until-lit interface technology for the service engineer with clear icon displays for easy diagnostics
- > Unique power failure feature - controller indicates if there has been a power failure while you are away

“The EcoPro G2 range delivers you better performance and cost savings”

# Sustainability and energy efficiency

## The EcoPro G2 is less expensive to run than a traditional lightbulb

The impact of rising energy costs has to be a major consideration in any successful business. Understanding energy-efficiency is all about knowing what can be done to reduce our impact upon the environment and putting in place processes and technologies that serve the greater good of society.

### Key sustainability and energy-efficiency features:

- > New highly efficient door heater uses waste 'heat' instead of electricity, delivering reduced running costs
- > Wall thickness reduces heat transfer and improves performance in hot kitchens, thereby improving energy efficiency
- > Energy-saving 'hot gas' vapourisation and defrost utilise waste 'heat' from the refrigeration system, saving energy in the process
- > High-performance Cylopentane foam which is more thermally efficient maintains its insulation performance longer than traditionally used foams
- > The new 'Airlines' unit cover is aerodynamically designed to cool the refrigeration system and reduce running time by 15 %
- > Optimum sized compressor and twin circuit evaporator reduces energy consumption
- > Static air chamber between door and thermal break reduces heat loss through the door gasket

# £65.30

## EP 700 H independent laboratory test annual average running cost

(Energy cost calculated at 12p per kWh)  
Product tested by RD&T

### Quick fact:

- > Computational Fluid Food Fresh Dynamics calculates accurate airflow and temperature simulation

### Quick fact:

- > Low Carbon footprint - 'natural' Hydrocarbon refrigerant, low energy consumption, through to product longevity and recyclability means the EcoPro G2 will help your business to reduce its carbon footprint

# Undercounter Cabinets

## Practical | Value | Storage

These convenient, practical and tough Under Counter Cabinets and Low Level Counters offer your business high-quality food storage right where you need it most - at the point of preparation. Undercounter refrigeration ensures the optimum use of available space in tight kitchen areas with clever utilisation of the space under the work bench. Let your business benefit from the high-quality storage of your ingredients while contributing to the real-world efficiency of your kitchen. Your food, kept fresher for longer and with less waste.

“Foster undercounters store your ingredients where you need them, at the point of preparation”

Quick fact:  
> 150 model available in 1/3 drawer format

# Prep Stations

## Easy | Ergonomic | Preparation

Foster's Prep Station range offers a universal solution to equip the key areas of food preparation within your kitchen. The quality of your food is a priority, but so is maximising the productivity and efficiency of your business. Maximise your kitchen processes, maximise your profitability and maximise your reputation.

**Quick fact:**

> Gastronorm pans are recessed into the top to allow the optional hinged night cover to form a complete seal. This enables safe storage of food within the pans during service

**Quick fact:**

> The fan assisted, forced air system delivers even temperature holding to both the counter base and top pan storage section to meet HACCP temperature requirements

**Quick fact:**

> Prep Station has been designed with the operator in mind, all pans and work bench height are within comfortable reach

Main image: FPS 3 HR (left) and FPS 2 HR (right) (with optional night cover)

### features & benefits

- > An ergonomic range of solutions with optimum height for comfort. Maximise the efficiency, comfort and well-being of your staff
- > The fan assisted, forced air system delivers even-temperature storage to both the counter base and top pan storage section, and meets HACCP temperature requirements
- > Choice of pan configurations accepting 6 to 16 1/3 Gastronorm pans
- > Gastronorm pans are recessed into the top to allow for an optional hinged night cover. This feature enables safe storage of food within the pans during service
- > The inner catch-tray in the pan storage section stops food from falling into the main storage area - preventing your food from spoiling and making it easier to keep clean
- > Automatic defrost for easy, trouble-free operation
- > The range is presented with a modern, sleek 304 stainless steel exterior and aluminium interior, placing hygiene at the forefront of design for storing open ingredients. A stainless steel interior option is also available
- > 1/2 drawer option allows for easy access to stored product

Perfect food prep  
whatever your  
operation

# Prep Tables

## Economical | Convenient | Easy-to-use

A highly economical prep table that offers long-lasting quality while keeping your gastronorm pans conveniently accessible whilst providing a perfectly positioned work surface height. Another great Foster product that takes the hassle out of food preparation and helps to make your kitchen a comfortable and easy place to work.

### features & benefits

- > Dual-forced air fan system for even temperature to both the counter base and pan top storage
- > Ensures maximum reliability and preservation of quality food and ingredients
- > Stainless steel exterior as standard for ease of cleaning, hygiene and safety
- > Automatic defrost for hassle-free operation
- > Optional energy-saving natural hydrocarbon refrigerant is available at no extra cost
- > Front breathing refrigeration system makes the range suitable for use in enclosed areas – overcoming a traditional problem associated with some commercial and domestic products

### Specs

# Pan Chillers

## Flexible | Added Value | Low-Cost

Foster's new Pan Chillers are designed to conveniently turn any work surface into a flexible, refrigerated preparation counter or server. The versatile Pan Chiller range can be wall mounted or free standing, whilst the hinged cover allows for safe storage of ingredients with the flexibility to stay open during preparation, thereby making the ideal solution for assembling pizzas, sandwiches, salads and desserts.

### features & benefits

- > Our flexible system accepts many different combinations of gastronorm pans (up to 150mm deep) to suit your requirements, whatever the nature of your catering business
- > Foodsafe stainless steel construction throughout for a hygienic and robust finish
- > Hinged cover fitted as standard, for safe storage of ingredients
- > Fully microprocessor controlled for fail-safe temperature control

# Touchpad Blast Chillers, Chill/Freezers & Controlled Thaw

## Safety | Quality | Preservation

New Touchpad blast chillers and freezers are an essential element of any professional kitchen, and are key to maximising the condition, taste and texture of your food. These units also make a major contribution to helping your kitchen meet food hygiene standards, preserving the quality of your food and reducing food waste.

Image left to right:  
BCT11, BCT36, BCT51, BCT21

Image above:  
CT70 Controlled Thaw Cabinet

### Cabinet Blast Chillers & Chiller/Freezers

- > Exceed your quality expectations. Capable of blast chilling from +70°C to +3°C in 90 minutes, exceeding UK and European food safety requirements. Freezing capacity from +70° to -18°C in less than 240 minutes.
- > Intuitive easy touch control panel - Just press and go!
- > Easy to use colour coding to indicate cycle status
- > Timed or probe chill/freeze to suit your needs - simple programming options
- > Soft Chill, Hard Chill, Hard Chill Max and Shock Freeze programmes to suit all types of foods

### CT70 Controlled Thaw Cabinet:

An outstanding controlled thaw cabinet with an impressive 70kg capacity

Thaws frozen food up to refrigerated temperature under controlled conditions. The cabinet alternates between circulating gentle heat and cool air via special ducting, ensuring an even, speedy and safe thaw

Your safely thawed food is then ready to use in optimum condition and as quickly as possible - saving your business time, streamlining your kitchen processes and maximising your output and quality

# Heated Cabinets

## Mobile | Flexible | Heated

At Foster, we don't just chill food; we can keep it warm too! This mobile heated cabinet is ideal for holding hot food until the point of service. Featuring high-quality construction, this versatile cabinet facilitates the preparation and serving of hot food – at the optimum temperature of 84 to 87°C. Overall the FHC500XM represents a highly mobile and robust product that allows hot food to be moved easily for serving.

### features & benefits

- > Unplugged, the heated cabinet can maintain temperatures at +70°C for up to 1 hour without power (depends on food type and quantity)
- > Fan assisted heating and insulated cabinet ensure uniform temperature for food holding and built in 'humidity reservoir' keeps heated food moist and in perfect condition prior to service. Your warm meats, sauces and vegetables will be kept at the ideal service temperature
- > Can serve as a major contribution to streamlining your kitchen processes and allows you to serve more meals, more efficiently
- > Heavy duty welded base ensures cabinet is robust enough to endure high-intensity use

# Drinking Water Coolers

## Fresh | Chilled | Water

Essential coolers for convenient, fresh, chilled water, whenever you need it. All models comply with the Water Regulation Advisory Scheme (WRAS) requirements.

Image left to right: CTDWC25, DWC25, DWC23 DC

### DWC Models

- > Range of three, free-standing water dispensers, offering outputs from 15, 25 or 50 litres of chilled water per hour
- > 304 grade stainless steel finish as standard for easy cleaning and hygiene
- > Simple connection to mains water and convenient single-phase electrical supply for easy installation
- > Easy to operate by curved tap or push button

### DWC Direct Chill Model

- > Direct chill 23 litres per hour
- > Mains water supply, no drain required
- > Cold and ambient water supply on demand means no stagnant water
- > Durable, simple design

### CT DWC Counter Top Model

- > Neat, compact, counter-top water chiller
- > Mains water supply, no drain required
- > Delivers 25 litres of chilled water per hour, plus ambient water alternative
- > Hygienic, push button water delivery - no taps mean no contamination
- > Sealed ice bank system delivers fast efficient chilled water (3 to 10°C adjustable)

### Specs

Tailor-made coldrooms delivering up to 30% energy savings!

# EcoPro Coldrooms

## The greenest coldroom in the world

The Foster EcoPro range of tailor-made coldrooms represents the pinnacle in environmentally-friendly coldstore refrigeration. Outstanding efficiency of design which can deliver up to 30% energy savings for your business, the EcoPro coldrooms are infinitely adaptable and utterly foodsafe.

This range has been designed to utilise the very latest, eco-friendly refrigeration technology, materials and manufacturing processes. Without question, the best you can buy.

**Quick fact:**

- > Low Energy Evaporators: by using EC fan motors, we have been able to increase efficiency from the lower power usage. The additional benefit is a reduction in heat generated within the room. ✓

**features & benefits**

- > All EcoPro coldrooms benefit from 75mm or 100mm cam locked insulation
- > Electronic energy optimisation control, low noise, condensing units to increase efficiency
- > Low energy 18W lighting
- > Low energy evaporators
- > 100mm door insulation
- > Semi rebate, positive sealing doors
- > Low transport carbon footprint
- > Energy-efficient strip curtains as standard
- > High density foam 43kgm3
- > New green foam insulation
- > Strip Curtains: Standard on all Eco Pro rooms for lower energy costs, also keeps the evaporator clean for added reliability
- > Peak control energy optimisation
- > 98% recyclable
- > Designed in the UK and built to last in the hardest working environments

## ProLine Standard Coldrooms

### Where budget comes first

Pro Line Standard Coldrooms are a fixed range of 20 coldroom sizes, ideal for when budget is a major purchasing consideration.

**Quick fact:**

- > Integral Refrigeration Wall mounted integral refrigeration system with fully programmable control panel, HFC refrigerant and tough, hygienic construction ✓

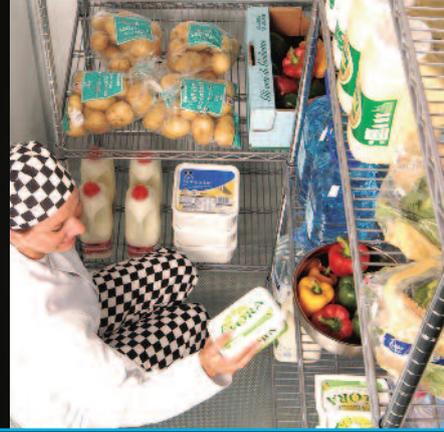

**features & benefits**

- > Competitive fixed price
- > Available in both chiller (+1/+4°C) and freezer (-18/-21°C) temperatures
- > 75mm foodsafe laminate interior and exterior hygienic finish
- > Standard room height of 2300mm
- > Complete with light as standard
- > Floored or floorless chillers, heavy duty floors on freezers
- > Integral refrigeration system with 32°C ambient operating temperature
- > Remote or integral refrigeration system options
- > Shelving options available
- > 12 month warranty as standard
- > Remote option includes condensing units for remote application installed up to 15 metres remote from the room. Supplied complete with weather proof housing. Complete with brackets. Project management included
- > Free site survey on receipt of order
- > Delivered, installed and commissioned by Foster Coldstores Technicians

# Advantage Coldrooms

Affordable | Reliable | Professional

The Advantage cold room range offers the quality you would expect from the commercial refrigeration market leader. This new range delivers a new generation of innovation by optimising the panel configurations and refrigeration plant selections, delivering the same great product at an amazing price.

Product only available in the UK

### features & benefits

- > Packaged coldrooms available as floored and floorless models available in 6 different sizes from 3.55m<sup>3</sup> to 15.14m<sup>3</sup> capacities
- > Integral or remote refrigeration system options available
- > 3 tier nylon shelving offered as an option on all models
- > Quick and efficient coldroom installation minimising disruption to the end user.
- > Suitable for ambients up to 32°C
- > White laminate finish to exterior and interior
- > Safe, non-slip, rigid, galvanised floor as standard on all floored models
- > Lockable, right hand hinged door comes complete with internal safety release handle

The Advantage range also includes the following as standard:

#### Quick fact:

- > Free project management nationwide offering complete peace of mind.

#### Quick fact:

- > Full turn key solution, supply, deliver, install, commission.

#### Quick fact:

- > 12 Months parts & labour warranty as standard

#### Quick fact:

- > UK Manufacturer, all rooms manufactured to size in our purpose built Kings Lynn factory

# Bespoke Coldrooms

## Ideal where space is at a premium

Bespoke Coldrooms are designed to maximise the available site space allowing you the flexibility and a choice of door positioning, coldroom height and dimensions.

**Quick fact:**

- > **Remote Refrigeration**  
Fully packaged refrigeration system, includes Foster Unit Coolers, Split System flexibility, easy remote operation and Hi/Low Temperature alarm

**features & benefits**

- > Utilise all available site space
  - > Fast and accurate quotations from our Coldstores Sales Team
  - > Quick delivery, installation and commissioning
  - > Installation supervised by Foster Coldstores experienced personnel from start to finish
  - > Simply provide a sketch of your site and we will provide you with a quotation. A free full site survey will then be carried out on receipt of your order, eliminating any specification issues
  - > 12 month warranty as standard
- Standard Features Include:**
- > 75mm or 100mm cam locked insulation
  - > 100mm door insulation
  - > Semi rebate positive sealing doors
  - > Built to last
  - > Designed and built in the UK
  - > Strip curtains as standard
  - > High density foam 43kgm<sup>3</sup>
  - > Low transport carbon footprint
  - > 98% recyclable

# Shelving & Racking

## Rugged | Modular | Flexible

These modular shelving and racking systems offer quick and easy assembly and robust construction for your coldroom, kitchen or storage areas. Maximum adaptability means that your business can make best use of all available storage space.

Available with a wide range of accessories that include marine specification, dunnage racks, utility carts, security cages and high density track systems.

**features & benefits**

- > Quick and easy assembly
- > Available in solid, slatted, perforated and wire formats
- > Available finishes: anodised aluminium, stainless steel, nylon coated and chrome
- > Suitable for all coldroom, kitchen and dry store applications
- > Widths range from 300 to 600mm. Lengths range from 600 to 1800mm. Heights up to 2000mm
- > Mobile shelving available

Leading manufacturer and supplier of professional refrigeration equipment for the hospitality trade

# Getting to know Gamko

Gamko develops, manufactures and supplies products that are tailored to the needs of the bar and leisure industries throughout the world

Quick fact:

> Fan assisted forced air refrigeration system on all Gamko coolers delivers even temperature to ensure all product is stored and served at the optimum temperature

Quick fact:

> Anthracite, hinged door under counter Maxiglass Noverta models are fitted with a full length ergonomic handle. Integral to the door frame this innovation assists with operation of the cooler and allows for stacking of the coolers without restriction of access

Quick fact:

> Option of solid fronted drawers are now available with the E2, Eco-line range of coolers, with no position or air flow restriction on any of the coolers this valuable option assists with access to product and stock rotation

Quick fact:

> Maxiglass, hinged glass door, MG1/150 through to MG1/315 models (both finishes) have ECA approval offering one of the most comprehensive ranges of bottle coolers accredited with this certification. Further model listing will follow

Authorised User No. 02718

# Flexbar

## Be Individual with Flexbars Bespoke Bar Design

Gamko's Flexbar is superbly suitable for accomplishing almost any complex arrangement of a bar. A curved bar, a pass through bar (doors on either side), it's all achievable. The total collection consists of over 140 different segments with which you can see your dream bar come true!

### > Flexibility

All Gamko Flexbar storage segments are available in both standard sizes of width: 41 cm and 54 cm. This allows you to always find a suitable fitting arrangement.

### > Look

The Gamko Flexbar is available in three different looks;

Anthracite... sheeted steel with a durable coating, seamlessly bordered. Curved, finished corners and edges provide easy maintenance of all surfaces.

Stainless steel... the anthracite coated steel is replaced by chrome steel (AISI 430), resulting in a stunning new look of anthracite borders on chrome steel.

Glass fronts... the door fronts and drawer fronts are fitted with insulated, double, toughened safety glass. Glass front drawers (only available in anthracite finish) are unique to the market! It allows optimal glass surface in favour of optimal presentation of the refrigerated beverage assortment.

### > Supreme user friendliness...

The newly developed, innovative Flexbar door handle consists of two components: a robust aluminium shell provides structural solidness, a rubber inner side provides an optimal grip, even in case of moist hands.

The robust Flexbar drawers are fixed with self locking bearings and two supportive inserted brackets to avoid tumbling of bottles when opening or shutting the drawer. Additional brackets that divide the container in it's width come as an option. The maximum load weight per drawer is 75 kg (165.35 lb.)

### > CELS, central electronic locking system

The Gamko Flexbar is available with a fully integrated, central electronic locking system. You lock the bar by means of only one action: turn the key and the entire bar is locked. Simple, swift and safe.

### > EQUAL-LED lighting

The Gamko Flexbar is fitted with LED lighting in stead of tube lights. All glass front segments come with white EQUAL-LED lighting as a standard.

### > Installation friendliness

The Gamko Flexbar is fitted with adjustable legs. These legs can be adjusted in height both from the outside as well as from the inside.

# Maxiglass Noverta Coolers

## Stylish | Effective | Flexible

Maxiglass coolers with glass doors are specially designed to present bottled drinks in an aesthetically pleasing manner, reach the perfect temperature, and maintain it. Thanks to the Maxiglass cooler, the beverage inside the bottle is always served at the correct temperature, and the taste and quality is guaranteed.

**Quick fact:**

> The anthracite-coloured models with a hinged door are fitted with a stylish and robust integral handle which is installed across the entire length of the cooler (from top to bottom). Therefore, even if the Maxiglass cooler is not located on the floor, it is still easy to open.

**Quick fact:**

> Variable temperature calibration visible on display. Adjust the temperature to your requirements. Save even more energy by switching off the lights at night.

The green revolution in professional coolers

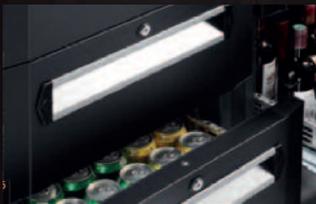

# ECO-Line Noverta Premium

## Sustainable | Efficient | Display

Gamko's ECO-Line is the standard for creating a fixed, sustainable and efficient bar layout. ECO-line bottle coolers are ideal for outstanding cooling and presenting bottled drinks and is available in anthracite (coated steel panels) and stainless steel finish (stainless steel AISI 304). Gamko supplies ECO-Line coolers that are plug ready and for a split system (remote). All plug ready models are considered to be 'green coolers', which means they are energy efficient and environmentally friendly.

Images right top: E2/222MU  
 Images middle left to right: E2/22GMUCS, E2/2222GMUCS  
 Image Below: ECO/22VSCS

**Quick fact:**

- > The ECO-Line drawers are mounted with telescopic rails and fit into any type of ECO-Line cooler. The drawers are fitted with the same broad and sturdy handles as on solid doors and also have a lock feature.

### features & benefits

- > Ready to plug in
- > Revolutionary low power consumption
- > Superb +2°C / +12°C cooling performance with fast pull down time
- > Environmentally friendly Hydrocarbon refrigerant
- > Increased display area with glass doors
- > Efficient LED lighting with even light distribution in the case of glass doors
- > Electronic thermostat and Automatic defrost easier to maintain (more service-friendly)
- > Push fit door seals
- > Adjustable shelves and drawer options
- > Each door section is fitted with 2 shelves as standard
- > Option: locks on solid doors/drawers
- > 24 months parts warranty and labour with an additional 12 months parts only

\* Conditions: Te = -5°C Tc = +45°C ambient temp. \*\* Power consumption of the cooler without the separately installed chiller unit. During installation: add 40mm to the overall depth (in conjunction with the appliance's plug) and add 10mm to the total width.

Refrigeration designed to enhance drinks presentation

# ST-Line Slide Top Coolers

Image above: ST/210CS

## Easy access to contents for efficient service

In addition to coolers with doors and drawers, Gamko also manufactures and supplies coolers with a handy sliding cover. These spacious top loaders, also referred to as slide top coolers, are plug ready and fit to any bar layout. The slide top cooler provides a good overview onto the stock of bottles and canned drinks from above. As a result you can conveniently and quickly see what you are looking for to ensure smooth service behind the bar, while you maintain eye contact with the customer.

Quick fact:

- > Exterior made of chromium steel with chromium steel sliding covers

### features & benefits

- > Plug ready top loader (no separate condensing unit required)
- > Powerful machine unit for short chilling time
- > Automatic defrost
- > Electronic thermostat with digital display
- > Fitted with robust chromium steel sliding cover with lock
- > Fitted with separate drainage outlet for fast and simple cleaning
- > Height-adjustable legs
- > Interior: silver-grey coated steel panels Incl. epoxy-coated bottle dividers
- > Integrated bottle opener and collection bin for bottle caps
- > Option with castors for a mobile counter
- > Possible to put your advertising display around it
- > Thermostat +2° C / +18° C

Image left to right: MF/110RCS, MF/110RGCS

## Glass Frosters

### Frozen glasses within minutes

Gamko manufactures and supplies freezers for inset or fitting on the back bar counter top. These plug ready freezers have been specially developed for rapid freezing of drinks glasses and for giving out ice-cold bottles of liqueur and spirits such as vodka or gin.

Quick fact:

- > Gamko supplies three variants of freezers for glasses and bottles. Two professional freezers with a capacity of 110 litres, in which the one is fitted with a heated glass door and the other one with a solid, rigid chromium steel door.

### features & benefits

- > Plug ready (no separate condensing unit required)
- > Efficient cooling system
- > Electronic thermostat with digital display
- > Automatic defrost
- > Fitted with 1 door, right-hinged or left-hinged
- > For the model with a glass door: heated glass to prevent the build-up of condensation
- > For the model with a glass door: internal lighting
- > 2 adjustable feet on the front
- > Exchangeable door seals
- > For inset or surface-mounting
- > Thermostat -10° C / -21° C

# Counter Top Coolers & Freezers

Image above: VK/12

## Inset and surface mounted counter top

Gamko manufactures and supplies convenient coolers and freezers for inset or fitting on the bar counter top. These compact top loaders for bottles, also referred to as counter top coolers/freezers, are plug-ready and ideal for serving chilled wine, liqueur or vodka by glass, at a constant temperature.

The cooler provides a good overview on the bottles from above. As a result you can conveniently and quickly see what you are looking for to ensure smooth service behind the bar.

**Quick fact:**

- > Gamko counter top coolers and freezers are perfectly designed for fast and efficient drinks service even in the busiest venues. Counter top storage aids fast beverage identification and helps to maximise your bar staffs productivity

**Quick fact:**

- > Bottle cooler counter top suitable for inset and surface-mounting (fitted with rubber feet)

**features & benefits**

- > Plug ready (no separate condensing unit required)
- > For chilling or freezing
- > Cooling capacity 156W \*
- > Power consumption 175W\*
- > Interior made of high-grade stainless steel
- > Ideal for inset for a professional image
- > Thermostat Cooling +10° C / +0° C,
- > Freezing +0° C / -15° C

Image above: AV/MU84

## Plug-Ready Display Coolers

### Impulse makes you buy

Gamko manufactures and supplies professional refrigerated display cabinets for inset or surface mounting on a bar or buffet. These compact display cabinets are plug ready and are perfect for inviting and refrigerated display, for example, of pastries, sandwiches or drinks in a bottle, cup or glass. Thanks to the high-quality machine unit and the outstanding air circulation, a consistent low temperature is created right throughout the display cabinet.

**Quick fact:**

- > As standard the refrigerated display cabinets are fitted with two sliding panes on the serving side and a fixed glass pane on the customer side. The refrigerated display cabinets can be extended on the customer side with sliding panels or acrylic hinged windows to facilitate self-service.

**features & benefits**

- > Plug ready (no separate condensing unit required)
- > Fast and consistent refrigeration
- > Outstanding air circulation
- > Energy-saving thanks to the double glazing
- > Energy-saving thanks to 40mm of insulation (polyurethane)
- > Electronic thermostat with digital display
- > Interior and exterior made of chromium steel
- > Lighting
- > Height-adjustable feet
- > Height-adjustable wire mesh shelves
- > Fitted as standard with 2 sliding panels on the serving side and a fixed pane on the customer side
- > Thermostat +2° C / +18° C

Quickly achieve the correct beer temperature for the best taste experience

# Keg Coolers

Image: FK2-25/4R

## Eco-friendly keg cooling systems

The Noverta Premium keg coolers are green coolers, which means they are energy efficient and environmentally friendly. The keg coolers have their own condensing unit, fit under the bar, are easy to maintain and are also fitted with automatic defrost, LED lighting, lock feature, electronic thermostat and an extra robust baseplate. Gamko supplies 4 variants, in which the machine unit can be positioned to the right or left.

Image: FK2-25/6R

### features & benefits

- > Plug ready (no separate condensing unit required)
- > Revolutionary low power consumption
- > Very short cooling time
- > Environmentally friendly, natural refrigerant
- > Low-energy LED lighting
- > Electronic thermostat with digital display
- > Automatic defrost
- > Interior silver-grey coated steel panels, exterior anthracite coated steel panels with wide silver-coloured handle
- > Lock feature (lock has to be ordered separately)
- > Reinforced baseplate
- > Consistent temperature of the kegs in relation to one another
- > Insertion of python line possible on both sides
- > Fitting possible under sink, both left & right
- > Thermostat Cooling +2° C / +18° C

Image top to bottom: FK/MU Machine Unit  
FK6 Cooler Box

## Keg Coolers without Machine Unit

### Panel Construction Keg Coolers

Gamko panel construction keg coolers are supplied as ready-to-assemble panels. In this way, they can also be installed in difficult-to-access places, such as a cellar. An installer assembles the keg cooler for you in situ and fits the condensing unit. Panel construction keg cabinets are also ideally suited for pre-chilling kegs and/ or crates or bottle drinks. The coolers can be supplied in five variants in terms of storage capacity.

#### Quick fact:

- > The FK/MUP as well as cooling kegs, also guarantees chilling the water in the python line system to the tap

### features & benefits

- > Works in combination with a machine unit FK/MU or FK/MUP (plug ready)
- > Supplied in properly packaged panels and installed together with machine unit by installer
- > Ideal for difficult-to-access places
- > Electronic thermostat and automatic defrost
- > Exchangeable door seals
- > Interior silver-grey coated steel panels, exterior anthracite coated steel panels
- > Reinforced stainless steel baseplate with upstand on three sides for easy cleaning
- > Easy to maintain (service-friendly)
- > Manufacturer's warranty
